

Korean Association for Laboratory Animal Science 2014 International Symposium

August 21 (Thu) - 23 (Sat), 2014
The Ocean Resort, Yeosu, Korea

- Abstract Submission May 19 (Mon) - July 31 (Thu)
- Registration May 19 (Mon) - July 31 (Thu)

Keynote Lecture

Charles Lee (Jackson Lab., USA)

Patient Derived Xenographs: The Jackson Laboratory Experience

Ajay Chawla (UCSF, USA)

Innate Immunity and Metabolic Homeostasis

Sang-Nae Cho (Yonsei Univ., Korea)

Animal Models of Tuberculosis for Efficacy Evaluation of New Vaccine and Drug Candidates

Aug. 21 (Thu)

Symposium-1

From Cell to Animal Model of Angiogenesis-Related Blindness and Retinoblastoma

Symposium-2

Aging and Cancer

Symposium-3

Biomarkers

Symposium-4

Animal Behaviors and Neuroscience

Symposium-5

Diversity of Animal Resources on the Biomedical Science

Symposium-6

Patient-Derived Tumor Xenografts as Models for Cancer Research

Council Meeting / Welcome Reception

Aug. 22 (Fri)

Symposium-7

Stem Cell Biology and Therapeutics

Symposium-8

Immune Responses in Metabolic Homeostasis

Symposium-9

Chonnam National Univ. Application in Laboratory Animal Science

Symposium-10

Animal Experiment and Anesthesia

Symposium-11

Korea-Australia Joint Session for "Mouse Models for Understanding Immune Disease"

Colloquium / Ceremony of Awarding / General Meeting

Aug. 23 (Sat)

Symposium-12

The New Trend of Pathogen Diagnosis and Quarantine

Symposium-13

Korean Association IACUC

Closing Ceremony

Organizer  KOREAN ASSOCIATION FOR LABORATORY ANIMAL SCIENCE

Sponsors  KOFST THE KOREAN FEDERATION OF SCIENCE AND TECHNOLOGY SOCIETIES  Ministry of Agriculture, Food and Rural Affairs

 YEOSU CITY
